

Dyspepsia Cured

A well-known woman of Camden, N. J., U. S. A., writes an interesting letter praising Duffy's Pure Malt Whiskey for relieving her husband and herself of serious stomach troubles.

"Duffy's Pure Malt Whiskey has come me and my husband a great deal of good. At times when I could not eat or retain anything on my stomach a tablespoonful of Duffy's Pure Malt Whiskey would give me strength and relieve me of that tired nervous feeling.

"My husband had stomach trouble and indigestion from childhood. It became so bad he had to quit work. He began taking Duffy's Pure Malt Whiskey, a tablespoonful before meals and at bed time. He was soon able to go to work and eat a hearty meal.

Duffy's Pure Malt Whiskey is palatable and agreeable to the most sensitive stomach. I certainly am a friend of yours for the benefits derived from your medicine and heartily recommend it to all."—Mrs. Sara E. Scott, 502 N. 5th Street, Camden, N. J., U. S. A.

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere.

CAUTION.—When you ask for Duffy's Pure Malt Whiskey, be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Look for the trade-mark, the "Old Chomist," on the label, and make sure the seal over the cork is unbroken. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., U. S. A.

Evening Bulletin 75c. Per Month

IN BUSINESS CIRCLES

Cheap stocks had their days all through the week just passed, reaching the highest figures recorded for some years and then dropping back a little as is usual after such rallies.

McBryde led the list, going to eight dollars the first of the week on the bill of a two thousand share order evidently "at market." O'Lea followed and at the close of the week is selling at seven dollars, with McBryde three-eighths higher.

Sugar Prices.

All the stocks on the list are firm and advancing. Apparently the prices were due to go up at a more rapid pace but on Wednesday a raw sugar quotation came through showing a slump from 4 1/2 to 4 cents. This was in opposition to all calculations; the buyers began to hesitate and some of them turned sellers. The next day however this quotation was corrected to read 4 3/8 and the buyers again displayed more nerve and came into the market again.

One estimate on the state of the raw sugar market is about as good as another. They all show a good price throughout all this season, and the only possible ground for an argument is whether the price will drop as low as 3.80 in the month of February, when the visible supplies are always the highest.

Recent sugar quotations have been dropping steadily but the disparity is still very large. It would seem as if the Cubans were sending their sugars to Europe and that this is the cause for the drop in beet. Certainly it cannot be the result of any recovery in the European beet returns.

Stock Quotations.

The week on the Exchange has witnessed some reasonably lively trading. One of the notable advances in the higher priced stocks is the trading in Pioneer at 210, representing a jump of ten dollars a share. Panahau has advanced to 30. Hawaiian Commercial has been taken up at 38.50 as rapidly as it has come out. Honokaa has held strong at 22.50 and Hutchinson at 18.50. Oahu sold as high as 35.50 and sagged off to 35.25 and finally 30. Ewa has gone up steadily and is fairly strong at 34.75. Waiaina instead of dropping after the monthly dividend was paid, turned in the other direction and sold the latter part of the week at 126 and 126.50. Onomaha is strong at 54 with very little trading.

As a matter of fact the stocks are held so closely that the cheaper stocks and those handled in the San Francisco market are about the only ones that can be gotten hold of for trading purposes. It has not yet reached even the fringe of the time when speculators believe they should begin to take their profits. They are gathering in now, waiting for the high prices of next April and May, accompanied by easy money, that should set some new records. The investor will not part with his stock because he cannot find a better source of income and even at the present figures he can buy with an assurance of nine per cent or more on his investment.

Bonds At Par.

A thriving business has been done in bonds. With the Kaula Railway bonds selling at par on Thursday, practically all the bonds on the market with the exception of the Hawaiian Extension bonds that represent the newest enterprise on the market have reached par.

Shippers' Wharf Tax.

Outside the stock market the general trend of business is very satisfactory, but free from any elements of excitement. Among some of the merchants there has been a more or less acrimonious debate going on regarding the accounting for the funds of the shippers' wharf committee. It is the old cry of taxation without representation. The money is collected largely from the merchandise shipped here by the merchants. It is dispensed by a committee of representatives of "big houses," and no one knows anything particularly about it except that a certain amount has been spent and another certain amount is in the bank. When any merchant asks for a detailed accounting, he may get it and he may not. Usually he says he is frozen with the glassy eye of big business. The shippers' wharf tax is a good feature of local affairs but there ought to be some system of letting a man know how his money is spent that is more democratic and less autocratic than is at present in vogue. Continuation of the present system makes ever present the danger of a general revolt on the part of a number of firms and a consequent utter downfall of the voluntary source of revenue for public projects.

Library Location.

Requests for opinions on the location for the proposed new library of Hawaii has stirred considerable interest in the business community as the consensus is that the structure should be near the center of the town and in fairly close proximity to the capitol building. It must also be placed on a

lot of ample size to allow attractive grounds, and the carrying out of the park effect.

Federal Appointments.

Appointment of judicial officers and resignations in the Territorial service have stirred up the town to no small extent. When the news of the Robertson, De Bolt and Robinson appointments to the Federal Territorial Supreme and Circuit courts was received there was general satisfaction down town and general consternation in the Capitol building. There was immediate talk of the Governor's resignation to which color was lent by the Governor's refusal to make known his intentions.

A cablegram from the Bulletin's Washington correspondent finally brought out the fact that the officials there did not believe Mr. Frear would resign, and the brighter atmosphere of the capitol building suggested that the Governor thought so himself. Why the Governor should consider that he was called upon to resign is more than any average business man can make out. The move found no sympathy down town, though a good number of business men called at the capitol to urge the Governor against taking a step that would at the present time be the rankest folly, though that is not the way they put it.

Board of Health.

An opinion by the Attorney General holding that Dr. Wayson cannot serve as an employee of the Board of Health and as a member at the same time opened the way for the appointment to the Board of Dr. Hobdy, head of the U. S. Marine Hospital Service, who has recently taken up private practice in the city. This is a very satisfactory appointment. Dr. Hobdy has made an excellent officer in the Federal service and is well liked among all classes in the city with which he has come in contact. He understands the problems of sanitation and such peculiar ones as the Territorial officers have to handle. His appointment should lead to the desired closer relations between the Territorial and Federal administrations.

Immigrants.

A cablegram from A. L. C. Atkinson stated that he has passed over one thousand Russian immigrants who wish to come to Hawaii under the auspices of the Board of Immigration and later advised that the shipment of these people will begin soon. Filipino immigrants are coming in on every steamer from the Philippines in ever-increasing numbers. The people now arriving are from the northern islands of the group. Reports of their work from the plantations are all favorable.

Sugar Carrying Contract.

The report that Vice President Dearborn of the American-Hawaiian Steamship Company is to visit the city next March has brought to public notice the carrying contract for the sugars of the islands. This contract expires next fall and it is presumed that Mr. Dearborn comes to discuss the renewal. One of the points on which everyone is pretty well united is that Hawaii is not getting the reciprocal accommodations for passengers that it should secure from the 271,000 tons of sugar that is carried by this one line, to say nothing of the merchandise brought to the Territory in its ships. The Sugar Factors Company has the making of the carrying contract.

Wilhelmina Ready.

Cablegrams received Thursday announced the arrival of the Matson Navigation Company's steamer Wilhelmina in San Francisco. This new steamer will be put on the local route the first part of February. The Hilgman going out this week makes its last trip on the Honolulu-San Francisco run. Henceforth it will run on the triangular route, taking in the northern ports.

For Kahului Harbor.

The Chamber of Commerce has renewed its approval of the Federal improvement of the Kahului harbor and word from Washington is that money will be made available to forward the work rapidly. The recent heavy north-easterly blow did considerable damage to the breakwater built by private capitalists, and shows the necessity for completing the structure soon so that the work already done shall not be lost.

For Hawaiian News.

Gen. John F. Soper has rented the premises between the Young building and the Kapitol block of the Lemon Estate for a period of twenty-five years at a rental of \$300 per month. This includes the Lincoln block adjoining the Young building. Mr. Soper will erect a warehouse in rear of the block to accommodate the increasing business of the Hawaiian News Company.

Pfotenbauer President.

At Friday's meeting of the Planters' Association William Pfotenbauer, manager of the house of Hackfeld & Co., was elected president of the Association in place of Wm. G. Irwin, resigned. Mr. E. D. Tenney, manager of Castle & Cooke, was elected vice pres-

RECREATIONS

BONINE.

There is a charm and dazzling delight of color in the pretty costumes of Sibel Campbell Reid at The Bonine this week. Mr. Shrove also adds a striking feature in his pretty selection of vocal sentiment, while the rare collection of eleven effects of animated photography make up one of the most interesting and entertaining places to be found anywhere.

STANTON COMPANY.

The Walter Stanton vaudeville company will give another performance at the Opera House this evening. The moving picture machine has been repaired and last night that part of the program went very satisfactorily.

THAT REMINDS ME

That everybody else is having a try at the comet but yours truly. I have heretofore refrained from touching that subject as I didn't think that I knew any thing about comets, but as everybody else is having a guess at it I am going to have a whack at it if I lose.

One thing I do know and that is that Halley's comet will be one of the attractions for the coming few months, and that there is a party of astronomers coming to Honolulu to get a view of the bright traveller.

We have made it our business to keep tab on the different distances given by different astronomers in regard to the far-offness of the coming visitor. These astronomers are all reliable and their deductions can not be questioned but these same deductions range all the way from 10,000,000 to 420,000,000 miles away on a certain day. And one astronomer has made the statement that the comet will make a trip behind the sun during his near trip.

We have reached the conclusion that we will not say any thing about it for I really don't think that we astronomers know any more about the comet than we do about the Governor's resignation.

The higher and advanced cost of living is shaking this country even up to the White House and the President has got the fever and is attempting an investigation of the subject notwithstanding the fifty-pound turkey and that monster mince pie.

We have all got to eat that's sure. I have been looking into the subject myself for some time and have made an exhaustive research for the foods that will give the best returns for the money. I find that eggs are a good substitute for meat and vice versa. Both of these necessities have gone soaring. I can stand it for a short time longer and then I guess that I will have to be content simply with the vice versa.

The goose that laid the golden eggs is not in it with the hen that will average three eggs a week nowadays.

"Where are you going, my pretty maid?"
"I'm going a shopping, sir," she said—
"Won't you come with me?" He shook his head.

And then, base coward, he turned and fled.—Washington Star.

ident, and Mr. J. M. Dowsett was made a member of the Board of Trustees of the Association in place of Mr. Irwin, resigned.

Of course you know this old, safe, and sure beacon. For over sixty years its light has been guiding the sick and suffering back to the harbor of health and strength. Isn't that a record to be proud of? For more than sixty years

AYER'S Sarsaparilla

has been the source of good health to many thousands of people in all parts of the world. Their testimonials come in by every post. They all assert the great fact—"Ayer's Sarsaparilla cured me." Weak, weary women, men who had been tired out and discouraged,—all write gratefully of the good it has done them.

There is a lesson for you in this. Why not heed it? Begin at once to take Ayer's Sarsaparilla.

As now made, it contains no alcohol.

There are many imitation Sarsaparillas. Be sure you get "Ayer's."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.
AYER'S PILLS, the best family laxative.

"HEADACHE, WEAKNESS, HEART TROUBLE"

"I Suffered With for Years--Pe-ru-na Cured Me Entirely."

Miss Albina Chauvin, No. 50 Rue Agnes, St. Henri, Montreal, Can., writes:

"I consider Peruna better than any other remedy, as it cured me when nothing else could. I suffered for years and years with heart trouble, headache and weakness. I never expected to find anything to cure me. One saw one day, in 'La Presse,' that Peruna was excellent and I tried it. One bottle produced a change in me and if the price had been \$100 a bottle I would have paid it gladly. I have taken six bottles and am entirely cured. Please accept my thanks and best wishes for your Peruna."

"Please Accept My Thanks and Best Wishes For Your PE-RU-NA."

ALBINA CHAUVIN

Many cases of heart trouble are caused by reflex disturbances. Derangements of the stomach and liver produce symptoms of heart trouble. Catarrh of the stomach is a very frequent cause of sympathetic heart disease.

Palpitation, shortness of breath and bloating after meals are the most prominent symptoms.

Such a condition of the stomach is also liable to produce headaches of the worst sort. Medicines that palliate the symptoms will never lead to a cure. It is the effect which Peruna has upon the stomach, healing the mucous membranes and restoring the natural function of the stomach, that causes Peruna to bring such prompt relief.
